

## LAB 6

**index.html**

**new.html**

**data/**

**hackerIpsum.json** *[Data for the blog!]*

**scripts/**

**article.js**

```
Article()
Article.all = []
Article.prototype.toHtml()
Article.loadAll() [uses rawData]
Article.fetchAll() [AJAX call + LS]
```

**articleView.js** **[unchanged]**

```
articleView.populateFilters()
articleView.handleAuthorFilter()
articleView.handleCategoryFilter()
articleView.handleMainNav()
articleView.setTeasers()
articleView.initNewArticlePage()
articleView.create()
articleView.initIndexPage()
```

## LAB 7

**node\_modules/** *[created when installing NPM dependencies]*

**package.json** *[created when initializing a NPM project]*

**server.js** *[expands Lab 8 for full CRUD functionality]*

**public/**

**index.html**

**new.html**

**data/**

**hackerIpsum.json**

**scripts/**

**article.js**

```
Article()
Article.all = []
Article.prototype.toHtml()
Article.loadAll()
Article.fetchAll()
Article.prototype.insertRecord()
[$.post the new article from the form]
```

**articleView.js** **[unchanged]**

```
articleView.populateFilters()
articleView.handleAuthorFilter()
articleView.handleCategoryFilter()
articleView.handleMainNav()
articleView.setTeasers()
articleView.initNewArticlePage()
articleView.create()
articleView.initIndexPage()
```
